

7060

Tactical Flashlight

In a rare collaboration between public and private sectors, the City of Los Angeles Police Department (LAPD) has partnered with Peli Products to develop the Peli 7060 LED as the standard issue tactical/patrol flashlight for all its officers.

The Peli 7060 LED light employs a revolutionary dual switch technology that allows the light to be activated by either a body-mounted patrol switch or a tail-mounted tactical switch. The dual switches, which include a momentary mode and high/strobe/medium/low beams, allows the user to grip the light in several positions and still control activation. In addition, the 7060 is self programmable. This allows the individual user to custom tailor the various modes to their liking. The light incorporates a rechargeable Lithium-Ion battery for maximum brightness and is also lightweight compared to standard batteries.

Battery, desk/dash charger, and multi-regional power supply included.

- Built Peli tough
- Super bright LED beam
- Lithium Ion Rechargeable Battery

DIMENSIONS

Length 8.65" (22 cm)

MATERIALS

Body Xenoy
O-Ring EPDM
Lens Polycarbonate (PC)
Shroud Xenoy

COLOURS

■ Black

LIGHT SPECS

Lamp Type LED

POWER

Battery Size 18650
Battery Type Lithium-Ion
Battery Quantity 1
Batteries Included yes
Rechargeable yes
Charge Time 5 hrs
Volts 3.7v

WEIGHT

Weight With Batteries 10.4 oz (295 gr)

Weight Without Batteries

8.2 oz (232 gr)

SWITCH

Switch Type 3-Way Side and Tail Switches
Light Modes High / Strobe / Medium / Low
