

2410 StealthLite™

Our most demanding users wanted a safety-certified task light slim enough to fit in a pocket, but without sacrificing performance. We integrated a high-intensity, machined-aluminum LED module with a locking on/off toggle switch, which is ideal for operating with gloved hands. The 2410 represents a safety-certified task light with the compactness necessary for on-the-go tasks, but with all the performance and durability that you'd expect from Peli. Same features as the StealthLite™ 2400 Flashlight, but with the LED module that produces a true, bright collimated LED beam. The 2410 is corrosion proof, resistant to extreme temperatures, and submersible. It is powered by 4 AA alkaline cells (included).

- 4 AA piles alkaline (fournies)
- Cordon de sécurité
- Rotational switch with locking on / off feature
- Compact, slender design
- Indice d'étanchéité à l'eau IPX7

DIMENSIONS

longueur	7.00" (17.8 cm)
