

# 2315Z0

The hazard horizon is bright. With ATEX Zone 0 (Category 1) Safety Certification , 115 lumens, 75 meters of spot beam distance and an IPX8 Waterproof rating, the Peli™ 2315Z0 flashlight stretches light across dark, hazardous environments without being a source of ignition. Engineered with an aluminum core and ABS overmoulded plastic, this flashlight is built for rough handling and can survive hard drops. Plus, the sturdy clip attaches to a work vest for fast access and the tail switch activates raw LED power, even when using heavy-duty work gloves.
